TOPIC: HTML ANCHOR TAG.
COURSE INSTRUCTOR: ABDULLAH MAHMOOD

HTML MARQUEE TAG

What is the `<marquee>` Tag?

The `<marquee>` tag is a **non-standard HTML element** used to create **scrolling text or images** horizontally or vertically across the webpage.

⚠ Important Note:

The `<marquee>` tag is **obsolete** and **not supported in HTML5**. Modern web development **prefers CSS animations or JavaScript** for creating scrolling effects.

```
1    <!DOCTYPE html>
2 ∨  <html>
3 ∨  <head>
4      <title>Complete Marquee Demo</title>
5    </head>
6 ∨  <body>
7
8      <h2>🟢 Default Marquee (Left to Right)</h2>
9      <marquee>Default marquee scrolling left</marquee>
10
11     <h2>🔵 Direction: Right</h2>
12     <marquee direction="right">Scrolling to the right</marquee>
13
14     <h2>🔴 Direction: Up</h2>
15     <marquee direction="up" height="100">Scrolling up</marquee>
16
17     <h2>🟠 Direction: Down</h2>
18     <marquee direction="down" height="100">Scrolling down</marquee>
19
20     <h2>🟣 Behavior: Slide</h2>
21     <marquee behavior="slide" direction="left">Sliding once from left</marquee>
22
23     <h2>⚫ Behavior: Alternate</h2>
24     <marquee behavior="alternate" bgcolor="lightblue" width="300">Bouncing text</marquee>
25
26     <h2>🟤 Scroll Amount (Speed): Fast</h2>
27     <marquee scrollamount="15">Fast scrolling text</marquee>
28
29     <h2>⚪ Scroll Delay (Slow motion)</h2>
30     <marquee scrollamount="5" scrolldelay="200">Slow scroll with delay</marquee>
31
32     <h2>🟧 Loop 3 times</h2>
33     <marquee loop="3">This text scrolls 3 times</marquee>
34
35     <h2>🟥 Full Control Example</h2>
36 ∨  <marquee behavior="alternate" direction="right" scrollamount="10" scrolldelay="100" bgcolor="yellow" height="100" width="400" hspace="20" vspace="10">
37        Complete Control Marquee
38     </marquee>
39
40   </body>
41   </html>
